## Synopsis

A ten year old girl is received by her aunt because of her mother's confinement to a mental hospital. But the aunt lives with a man, Jean-Pierre, who seems to be a little too nice with the girl...

"My name is Mimi. My mom took a lot of drugs last night and now she's all pale and in the hospital.

Aunt Solange took me to her apartment. My bed is in a very little closet. At night, I hear a man hurting Solange. His name is Jean-Pierre.

There's nothing to do at my aunt's apartment. The apartment is really hot. Jean-Pierre messes with me. I'm scared he's going to hurt me like he hurts my aunt at night.

Drugs have many, many colors... there are many to choose from... Maybe if I take them, I can go be with my mom again."

-----  
Pedophilia is not an easy subject, especially for a movie. But thanks to the great intelligence of the visual style, and the script, La bouche de Jean-Pierre (in USA, MIMI) is one of the best films about pedophilia, without excessive pathos. Actors are amazing, especially the little girl. -
